25 APR 1984

MEMORANDUM FOR THE RECORD

SUBJECT: Telecon with Representative Frank R. Wolf on 25 April 1984

1. The undersigned received a call from Representative Frank Wolf at approximately 1000 hours on this date. The call was very brief.
2. The Congressman stated that he wanted to make two points with regard to road improvements associated with CIA expansion:
 - a. If CIA does not build a visitor center at the GW Parkway entrance, the CIA is not "doing enough."
 - b. If CIA does not push the addition of a dedicated lane on the inner loop of the Beltway for GW Parkway traffic, the CIA is not "doing enough." He stated that he doesn't care how "cute or famous" our traffic consultant is, he believes an additional lane is required, and if CIA does not pursue the issue, he will become directly involved. (This remark is in response to an earlier comment by the Virginia Department of Highways and Transportation consultant to the effect that this added lane would look foolish because the widening of Cabin John Bridge will eliminate the current backups blocking Parkway access.)
3. The writer stated that he understood the Congressman's points and that both issues would be reviewed with his views in mind.
4. Approximately one hour later, the Congressman's aide called to apologize for the tone of the Congressman's remarks. In Mr. Wolf's conversation with the aide, he allegedly stated that he would talk to Senator Warner about these issues. He also allegedly stated that he would "tie them up" if he did not get a satisfactory response.
